

## Technical data sheet

### Cable fittings and accessories

---

#### LÜTZE CABLEFIX® Vario

Feed-through for all prefabricated cables and wires with connectors

---

#### Identification

|          |                        |
|----------|------------------------|
| Type     | VARIO KKLR2 SW         |
| Part No. | <a href="#">606053</a> |

---

#### Product version

|                   |    |
|-------------------|----|
| Datasheet version | 00 |
|-------------------|----|

---

#### Use/Application/Properties

- |             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application | <ul style="list-style-type: none"><li>• Electrotechnology, pneumatics, hydraulics, robotics, general machine and plant construction</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Properties  | <ul style="list-style-type: none"><li>• Feed through and terminal frames from high-quality solid material</li><li>• High flexibility in the application</li><li>• Additional mounting to existing installation easily possible</li><li>• Even pressure effect on the feed through round material yields good strain relief and sealing</li><li>• Unneeded holes in the module can simply with blank plugs</li><li>• Compact design i.e. space-saving</li><li>• 2 module sizes with slot and suspension principle</li><li>• Very good weathering resistance</li></ul> |

---

#### Technical data

|                                           |                              |
|-------------------------------------------|------------------------------|
| Dimensions (w × h × d)                    | 164.0 mm × 71.0 mm × 30.0 mm |
| Master gauge for holes                    | HAN 24 B socket housing      |
| Number of rubber modules<br>VG=40×43.5 mm | 3                            |
| Number of rubber modules<br>VK=40×22.9 mm | 6                            |
| With flat seal and drilling template      | Yes                          |
