DLC listed LED lighting

Over 300 approved models!

About DesignLights Consortium

DesignLights Consortium® (DLC)® ia a collaboration of utility companies and regional energy efficiency organizations in the U.S. and Canada committed to ensuring that high quality, energy-efficient lighting design becomes commonplace in all commercial lighting installations.

DLC Qualified Products List

- Customers should verify their fixture against the Qualified Products List (QPL) for guidance in selecting the most high quality, high performance, tested and verified LED products for specific applications
- Utility program administrators approve all LED brands listed in the QPL for their regional energy efficiency incentive and rebate programs
- The specification guidelines and procedures for getting listed on QPL are developed through a collaboration between U.S. Department of Energy (DOE), ENERGY STAR® members, the DLC committee and manufacturers
