# Three-position devices for different types of assembly
Three-position push button JSHD2C
The button is the main component in a safe three-position solution. To achieve the highest safety level two buttons are used in a two-channel system.

Panel assembly JSHD4H2
A panel assembly suitable for building into programming units or similar control boxes. Provides simultanous activation of both of the three-position buttons.

External assembly JSHD4H2A
The external assembly is similar to the panel assembly unit, although it is a 'handle' design making it suitable for assembly on the outside of a control box.

Standard versions

Article number	Model
2TLA020002R0200	JSHD4H2A Three-position device for external panel assembly
