

Product End of Life Instructions

EASYLOGIC PM2130

Potential disassembly risks

The information provided in this document assumes that the product is completely de-energized and uninstalled (refer to the instructions provided in the appropriate product manuals).

Dismantling/disassembling the product may entail hazards caused by, for example, sharp edges, chemical aggression or ejected parts.

⚠ WARNING

HAZARD DUE TO INSUFFICIENT PROTECTION

- Implement all safety measures required by the applicable regulations and by the processes used to dismantle/disassemble and dispose of the product.
 - Use all necessary personal protective equipment such as gloves and goggles.
- Failure to follow these instructions can result in death or serious injury.

End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	Comment
Other	1	Capacitors	52.8	EAV83723 (1)
Other	1	Front Transparent Cover	14.8	EAV66614 (1)

Other	2	SEMS Screw	2.2	NHA91941 (2)
Other	3	Brass insert	6	NHA57384 (3)

Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	The functional unit consists of a power meter to measure Energy with analog & digital output with 96mm by 96mm bezel size LED display for 10 years Reactive energy +/- 1 % Active power +/- 0.5 % Voltage +/- 0.5 % Power factor +/- 0.01 Current +/- 0.5 % Frequency +/- 0.05 % It's IO modules can be added for extended functionality, including alarm configurations and monitoring capabilities. It is compatible with both 50Hz and 60Hz networks and supports either 1A or 5A input current and offers various wiring schemes for single-phase, two-phase, or three-phase configurations.
Product reference	METSEPM2130
Total representative product mass	275 g
Representative product dimensions	96mm x 96 mm x 54 mm
Date of information release	05-2025

Additional information

Legal information	This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.
Recyclability potential	9% The recyclability rate was calculated from the recycling rates of each material making up the product based on REEECY'LAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the EIME database and the related PSR was taken. If no data was found a conservative assumption was used (0% recyclability).
