

Siemens Low Voltage Residential Circuit Breakers Main Breakers - Type QS Breakers are Circuit Protection Load Center Mains, Feeders, and Miniature Circuit Breakers. Type: QSH Application: Electrical Distribution Standard: UL 489 Voltage Rating: 120/240 V Amperage Rating: 150A Trip Range: Thermal Magnetic Interrupt Rating: 22 AIC Number Of Poles: 2P

| product function note                              |                         |
|--|-------------------------|
| number of poles                                    | 2                       |
| suitability for operation                          | Electrical Distribution |
| Electricity  |                         |
| continuous current rated value                     | 150 A                   |
| voltage between phase and Ground (GND) rated value | 120 V                   |
| voltage between phase and phase rated value        | 240 V                   |
